Hatim Slami

Python (Django) & Full-Stack Web Developer | Information Engineer

hatimslami81@gmail.com | +62 887-5932-828 | Jakarta, Indonesia | linkedin.com/in/hatim-slami

PROFESSIONAL SUMMARY

Information Engineer and Full-Stack Web Developer based in Jakarta, Indonesia, open to remote roles. Specializes in Python & Django REST backends, React frontends, and production WordPress / WooCommerce platforms. Experience shipping multi-role marketplace APIs, WhatsApp commerce SaaS, realtime GPS tracking, JWT/OTP auth, and high-converting business websites.

TECHNICAL SKILLS

Backend: Python, Django, Django REST, Channels, NestJS, Node.js, REST APIs, PostgreSQL, Redis, MySQL, SQLite

Frontend / CMS: React, JavaScript, HTML5, CSS3, WordPress, Elementor Pro, WooCommerce, Flutter, Responsive Design

Tools: Git/GitHub, Docker, Nginx, GitHub Actions, Postman, Site Migration, Security Auditing, Web Maintenance

EXPERIENCE

Software Developer - IndoForm

WhatsApp commerce SaaS | indoform.id

- Contributed to development of a WhatsApp store platform for UMKM - storefront setup, store links, and structured order flows.
- Supported QRIS payment flows, order status updates, and trilingual UI (Indonesian, English, Arabic).

Backend Engineer - Valley Order

Jibran | Multi-role delivery marketplace

- Built production API for Customer / Provider / Captain / Admin on Django REST, Daphne/Channels, PostgreSQL, and Redis.
- Implemented OTP SMS auth, dynamic delivery pricing, FCM notifications, coupons, and full order lifecycle.
- Designed hybrid live GPS tracking with NestJS Socket.io sidecar sharing JWT and Postgres.
- Delivered landing/legal/support APIs, OpenAPI docs, Jazzmin ops, Docker dual-env Dev/Prod, and GitHub Actions CI/CD.

Python & Django Programmer

APIs | Databases | Backend tools

- Developed RESTful APIs and database schemas with clean models and JWT-ready auth patterns.
- Built maintainable service layers and backend tooling in Python and Django.

Website Creator & Designer - Adam Events

WordPress | adamevents.net

- Designed and delivered interactive WordPress event platforms with conversion-focused UX (Elementor Pro).

Developer - Ademixvet

WordPress | ademixvet.com

- Custom WordPress infrastructure, frontend adjustments, and production technical optimizations.

React Frontend Developer

Restaurant & product UIs | giamaharanigroup.com

- Built React frontends for restaurant experiences: digital menus, bilingual UI, promos, WhatsApp ordering.

Website Developer - Digital Arabic

WordPress | gulf-private.com | kochreal.com

- Built and maintained WordPress / WooCommerce platforms with migrations, security hardening, and speed optimization.

SELECTED PROJECTS

IndoForm - indoform.id

WhatsApp commerce SaaS for UMKM: storefront builder, store links, QRIS payments, order dashboard, and 0% platform commission.

Valley Order - valley-order.com

Marketplace backend: JWT/OTP, catalog, checkout, dynamic pricing, FCM, hybrid realtime tracking (Django + NestJS).

Boma Platform - boma.sy

Syrian e-commerce store for BOMA electrical appliances on WordPress/WooCommerce, integrated with a Flutter mobile app.

Adam Events - adamevents.net

WordPress events & conference website with dynamic layouts and booking-oriented flows.

Gia Restaurant - giamaharanigroup.com
React restaurant site (Bogor): digital menu, promos, bilingual UI, WhatsApp ordering.

Gulf Private - gulf-private.com
Corporate WordPress site for Saudi infrastructure and real-estate development.

Koch Real - kochreal.com
Luxury real-estate WordPress platform with property search and bilingual Arabic UI.

Ademixvet - ademixvet.com
Animal-health commerce WordPress site with custom infrastructure and product catalog UX.
